

2026 III Q Report of the Implementation of the Deep and Comprehensive Free Trade Area Agreement (DCFTA) between
Georgia and the European Union and other commitments beyond it

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
Goal 1.	Further improvement in the field of trade statistics				
Objective 1.1	Development of External Trade Indices (Export-Import Unit Value Indices)				
1.1.1. Recalculation of imported goods' value from CIF-type (Cost, insurance and freight) to FOB-type (Free on board) prices.	Statistics of International Merchandise Trade in both CIF and FOB prices are produced	Statistical data about FOB-type value of imported goods are presented on the website: www.geostat.ge	National Statistics Office of Georgia	National Bank of Georgia	To collect the data necessary for the calculation of import in FOB (Free on board) value, a statistical survey was conducted, as a result of which the cost of transportation and insurance for the selected categories was allocated from the CIF value of imported goods. At this stage, the data obtained from the statistical survey are being processed and final calculations are being prepared.
1.1.2. Production of quarterly Statistics on International Trade in Services	Preparatory work for the production of the quarterly Statistics on International Trade in Services has begun	DCFTA implementation report; www.dcfta.gov.ge	National Statistics Office of Georgia	National Bank of Georgia	Preparatory work with the National Bank of Georgia has begun. The general action plan has been elaborated.
Goal 2.	Promoting exports to the EU				
Objective 2.1.	Diversification of export products within the EU				
2.1.1 Promoting the participation of Georgian companies in international events, exhibitions and trade missions in EU countries	Number of co-financing instances provided to exporting companies for participation in international events (exhibitions and trade missions) in EU countries- 90 The number of exhibitions and trade missions held in EU countries in which a Georgian company was represented with the	Annual Report	LEPL Investment Agency		In the first half of 2026, with the support of agency Georgian small and medium businesses participated in 4 international exhibitions held in Germany, Italy and Spain. In total, the agency cofinanced 34 cases of Georgian companies' participation in the above-mentioned events. Additionally, within the framework of the Individual Expo Grant Program, 50 new contracts were signed to support participation in 18 different events held in France, Italy, Spain, Germany, and the Netherlands.

2026 III Q Report of the Implementation of the Deep and Comprehensive Free Trade Area Agreement (DCFTA) between
Georgia and the European Union and other commitments beyond it

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
	support of the agency - 30				
Objective 2.2.	Development of small and medium business export opportunities				
2.2.1. Training of export managers of small and medium businesses	Number of certified export managers - 30	Annual Report of Enterprise Georgia www.enterprisegeorgia.gov.ge ¹	GEDC	Selected higher educational institution	During the reporting period, the Export Managers Certification Course was organized and 22 export managers were trained.
2.2.2. Implementation of technical assistance program for export promotion.	Number of supported export-oriented companies - 10	Annual Report of Enterprise Georgia www.enterprisegeorgia.gov.ge	GEDC		During the reporting period, no Applications have been submitted by private sector within the framework of the Export promotion technical assistance program.
Goal 3.	Legislative and institutional approximation with relevant EU legislation and best practice in the field of technical barriers to trade				
Objective 3.1.	Elaboration of legislation that Georgia has undertaken to approximate in accordance with Annex III-A to the Association Agreement				
3.1.1. Adoption/updating of international and European standards, including harmonized standards of sectoral directives specified in Annex III-A of DCFTA, as Georgian standards	The number of the European and/or international standards Georgia has adopted	Decrees of the General Director of the Agency regarding adoption of standards; Georgian standards electronic platform: www.sst.geostm.gov.ge	LEPL – Georgian National Agency for Standards and Metrology (GEOSTM)		As of the second quarter of 2026, a total of 954 standards were registered by the Standards Department, including: 905 European and 49 international standards.
3.1.2. Development of a "Strategy for Approximation with EU Legislation in the Fields of Standards, Conformity Assessment, Accreditation,	Adopted strategy	www.DCFTA.gov.ge	Ministry of Economy and Sustainable Development of Georgia		First draft "Strategy for Approximation to the EU Legislation in the Areas of Standardization, Conformity Assessment, Accreditation, Metrology, and Market Surveillance" has been already prepared. Internal consultations are currently ongoing.

¹ As a result of the reorganization, the LEPL "Enterprise Georgia" was split into two entities: the "Economic Development Corporation" and the LEPL "Investment Agency."

2026 III Q Report of the Implementation of the Deep and Comprehensive Free Trade Area Agreement (DCFTA) between
Georgia and the European Union and other commitments beyond it

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
Metrology and Market Surveillance"					
3.1.3. Amendment of Decree N476 of the Government of Georgia of October 1st, 2018 "Adopting the Technical Regulation on Construction Products" for further approximation to Regulation 305/2011 of the European Parliament and of the Council of 9 March 2011 laying down harmonized conditions for the marketing of construction products.	Amendment of the Decree of the Government of Georgia	Legislative Herald of Georgia – www.matsne.gov.ge	Ministry of Economy and Sustainable Development of Georgia	LEPL-Market Surveillance Agency	By Resolution No. 155 of the Government of Georgia of April 8, 2026, an amendment was made to the Technical Regulations "On Construction Products". According to implemented changes, 125 new construction products are added to the scope of supervision.
3.1.4 Preparation of technical regulations according to the Directive 2014/30/EU of the European Parliament and Council of 26 February 2014 on the harmonization of the laws of the Member States on electromagnetic compatibility	Adopted technical regulations	Legislative Herald of Georgia www.matsne.gov.ge	Ministry of Economy and Sustainable Development of Georgia	LEPL-Market Surveillance Agency	A draft resolution of the Government of Georgia on the approval of the Technical Regulation on Electromagnetic Compatibility of Equipment has been prepared. Following the completion of consultations with the relevant agencies, the draft regulation will be submitted to the Government of Georgia for approval.
3.1.5. Approximation of European Parliament and European Council of 5 April of 2017 Regulation 2017/745/EU regarding	Adopted legislative acts	Legislative Herald of Georgia - www.matsne.gov.ge	Ministry of Internally Displaced Persons from the Occupied Territories,	Ministry of Economy and Sustainable Development of Georgia	In order to approximate the regulations 2017/745/EU and 2017/746/EU, the draft law of Georgia "On medical devices" has been prepared by the The Ministry of Internally Displaced Persons from the Occupied Territories, Health, Labour and Social Affairs of Georgia

2026 III Q Report of the Implementation of the Deep and Comprehensive Free Trade Area Agreement (DCFTA) between
Georgia and the European Union and other commitments beyond it

medical devices and European Parliament and Council Regulation 2017/746/EU of 5 April 2017 on in vitro diagnostic medical devices.			Labour, Health and Social Affairs of Georgia		
Objective 3.2.	Institutional and infrastructural development necessary for technical regulation, standardization, metrology, accreditation, conformity assessment and market surveillance administration				
3.2.1. Update/improve the existing status of Georgian National Agency For Standards And Metrology (GEOSTM) in European Standardization Organizations CEN/CENELEC and implementation of respective activities	European Standards have been adopted fully adopted as Georgian standards, complete (100%) alignment has been preserved Implementing relevant work for the obtaining of CEN/CENELEC full membership status	CEN/CENELEC report; Report of LEPL – Georgian National Agency for Standards and Metrology (GEOSTM)	LEPL – Georgian National Agency for Standards and Metrology (GEOSTM)		- To ensure compliance with the criteria established for membership in the European Standardization Organizations (CEN/CENELEC) (as per CEN-CENELEC Guide 22 "Guide on the organizational structure and processes for the assessment of the membership criteria of CEN and CENELEC," edition 5, 2021-12), the Standards Department of the GEOSTM plans to conduct internal self-assessment activities. These activities are designed to evaluate compliance with defined criteria in accordance with the requirements of the Quality Management System (EN ISO 9001:2015). - The Quality Management System (QMS) of the Standards Department successfully completed an external surveillance audit conducted by the Italian certification body (ITA) on 11 June 2026. - As of the Q3 2026 CEN/CENELEC report, Georgia has achieved a 94.09% harmonization rate with European standards.
3.2.2. Continuation of the process of modernizing the equipment of reference laboratories in priority directions in order to provide improved services	Increased number and range of services offered	The number of issued calibration certificates Annual Report of the agency	LEPL – Georgian National Agency for Standards and Metrology (GEOSTM)		- In March 2026, renovation of the source storage facility of the Ionizing Radiation Measurement Reference Laboratory were completed. - As of the third quarter of 2026, the following equipment has been procured for the Institute of Metrology, a reference digital multimeter (delivery is scheduled for August), two differential digital manometers, one digital barometer and component parts for the FH 200 kN digital dynamometer.

2026 III Q Report of the Implementation of the Deep and Comprehensive Free Trade Area Agreement (DCFTA) between
Georgia and the European Union and other commitments beyond it

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
3.2.3. Taking necessary measures to maintain and / or expand the international recognition of priority reference laboratories in metrology field	The number of CMC records of agency recognized calibration and measurement capabilities	Bureau International of Weights and Measures (BIPM) database www.bipm.org	LEPL – Georgian National Agency for Standards and Metrology (GEOSTM)		- A list of measuring instruments and national standards has been identified for which calibration will be carried out at metrology institutes in European countries in order to ensure traceability. The agreements were concluded with the National Metrology Institutes of Italy, the Czech Republic, and Poland are currently underway. - The Physico-Chemical Laboratory of the Metrology Institute is participating in a EURAMET comparison on the calibration of volumetric glass flasks (500 mL and 5000 mL). - Preparatory activities have been initiated for additional comparisons under EURAMET in the field of digital multimeter calibration (DCV, ACV, DCR, ACI, DCI, current status: preparation and organization of the technical protocol). - Preparatory activities have been initiated for key comparisons under EURAMET (EM-K14) on voltage ratio and phase angle measurements up to 100 kV, current status: preparation and organization of the technical protocol). From 14 to 16 April 2026, the Georgian National Agency for Standards and Metrology joined EURAMET Interlaboratory Comparison No. 1792. The objective of the comparison is to obtain Calibration and Measurement Capability (CMC) entries in the field of volume for capacities of up to 20 litres. The measurements will be carried out using 5 L and 20 L standard capacity measures. - In September 2026, the Georgian National Agency for Standards and Metrology (GEOSTM) joined EURAMET Interlaboratory Comparison No. 1786 in the field of mass measurements.
3.2.4. Continuation of preparatory works for introducing the new services in the field of metrology in accordance with ISO	Received recognition in the field of production of standard samples	Bureau International of Weights and Measures (BIPM) database www.bipm.org	LEPL – Georgian National Agency for Standards and Metrology (GEOSTM)		The determination of stability using certified reference material is being carried out in accordance with the requirements of the quality documentation. The activities defined in section 3.2.4 require donor support.

2026 III Q Report of the Implementation of the Deep and Comprehensive Free Trade Area Agreement (DCFTA) between
Georgia and the European Union and other commitments beyond it

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
17034: 2016 reference materials					
3.2.5. Further development of the digitalization program of the Accreditation Center's services	Ensuring full electronic traceability of accreditation documents. Renewed accreditation certificates issued by the Accreditation Center, which bear the relevant traceability QR code	Annual report of the Accreditation Center www.gac.gov.ge	LEPL "The Unified National Body of Accreditation – Accreditation Center"		At this stage, the digitalization program is being updated in line with the modifications and technical upgrades implemented within the server infrastructure. Prior to the full launch of the program in real-time operational mode, additional training sessions for the Accreditation Center staff are planned, after which the system will transition fully into real-time operation. In the coming years, it is planned to integrate an artificial intelligence component into the program and further enhance its functionality, for which donor support will be required. At this stage, all initial accreditation applications, along with the physical submission of documents, are also accepted in electronic format. In addition, the registration of technical assessors and experts in the ESDAS electronic system is currently underway, with the aim of establishing a unified database of experts. To increase the transparency and efficiency of the evaluation process, an audio-video recording procedure for the evaluation process has been developed and implemented in a test mode, which allows the evaluation process to become even more transparent, if desired. The use of this mechanism during the evaluation requires the written consent of the organization being evaluated, while the conditions for data storage and destruction are specified in relevant documents. During the reporting period, guidance documents (a guidebook) for the accreditation scope of personnel

2026 III Q Report of the Implementation of the Deep and Comprehensive Free Trade Area Agreement (DCFTA) between
Georgia and the European Union and other commitments beyond it

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
					certification bodies for architects and civil engineers were developed, which contributes to the development of the national quality infrastructure in accordance with European standards.
3.2.6. Creation of an accreditation scheme in accordance with the EU regulations CBAM (Carbon Border Adjustment Mechanism) and EU ETS (Emissions Trading System).	The validation/verification scheme has been approved in accordance with the international standard ISO/IEC 17029.	Annual report of the Accreditation Center www.gac.gov.ge	LEPL “The Unified National Body of Accreditation – Accreditation Center”	Ministry of Economy And Sustainable Development Of Georgia Ministry of Environmental Protection and Agriculture of Georgia	For the development of the validation and verification scheme, a draft amendment was prepared, along with new documents, including accreditation rules and procedures for bodies performing validation and verification activities. In addition, a validation/verification scheme was developed. These documents serve as guidance documentation for organizations interested in obtaining accreditation in the field of validation and verification. At this stage, the documents have been submitted to experts for recommendations and review, after which their final approval will be carried out.
3.2.7. The next assessment of the Georgian Accreditation Center by the European Accreditation Organization (EA) to maintain European and international recognition	Formation of the Assessment Team of the Georgian Accreditation Center by the European Union Accreditation Organization (EA) and implementation of the assessment	Website of the European Union Accreditation Organization: https://european-accreditation.org/ Website of the Accreditation Center: www.gac.gov.ge	LEPL “The Unified National Body of Accreditation – Accreditation Center”	Ministry of Economy And Sustainable Development Of Georgia	The assessment will be carried out in October-November 2026, and the results will be announced in the first quarter of 2027. As part of the planned assessment, an application was submitted to EA for the extension of the Georgian Accreditation Center’s scope of recognition in the areas of auditing and management systems certification. Accordingly, in order to ensure that the Georgian Accreditation Center is institutionally prepared for the assessment and that the competence of its assessors is further enhanced, a workshop was organized for relevant staff members of the Georgian Accreditation Center in cooperation with the Turkish Accreditation Agency (TURKAK). In addition, the Center’s staff participated in an assessment conducted by TURKAK. Furthermore, a relevant TURKAK expert will observe the Georgian Accreditation Center’s assessors during an assessment to verify their competence in accordance with international best practices.

2026 III Q Report of the Implementation of the Deep and Comprehensive Free Trade Area Agreement (DCFTA) between Georgia and the European Union and other commitments beyond it

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
Objective 3.3.	Facilitate the training and adaptation of stakeholders, including economic operators for the implementation of related legislation				
3.3.1. Organize meetings / seminars for interested parties, including small and medium entrepreneur	Meetings held / Number of seminars	DCFTA implementation report; www.dcfta.gov.ge	LEPL “The Unified National Body of Accreditation – Accreditation Center” LEPL-Georgian National Agency for Standards and Metrology LEPL Market Surveillance Agency	Ministry of Economy and Sustainable Development of Georgia	Standards and Metrology: • From 23 to 27 February 2026, representatives of the GEOSTM participated in meetings organized within the framework of bilateral cooperation with PTB, titled “Quality Infrastructure (QI) Week for the Construction Materials Sector.” Within this framework, working meetings with stakeholders were held in Tbilisi, Rustavi, and Mtskheta. • On 27 February 2026, an “Open Day” was held at the GEOSTM with the support of PTB. The event included informational and working meetings with students, entrepreneurs, and chairs of technical committees. From 1 to 5 June 2026, the 20th EURAMET General Assembly was held in Tbilisi. The Assembly brought together 110 delegates representing various countries and organizations. On 18 June 2026, representatives of the Georgian National Agency for Standards and Metrology participated in a meeting held at the Georgian Technical University entitled "Enhancing the Competitiveness of the Georgian Construction Materials Sector through the Development of Quality Infrastructure and Cooperation between Academia and the Private Sector." The event was organized by the German National Metrology Institute (PTB). • In order to confirm the metrological and technical competence of accredited calibration laboratories in the field of geometrical measurements, interlaboratory comparisons were conducted by the Geometrical Measurements Standards Division of the Metrology Institute. Two accredited laboratories participated in the comparison. Interlaboratory comparisons are currently underway for measurements of electrical resistance at 10 kΩ (with the participation of one accredited laboratory) and 10 Ω (with the participation of one accredited laboratory).

2026 III Q Report of the Implementation of the Deep and Comprehensive Free Trade Area Agreement (DCFTA) between
Georgia and the European Union and other commitments beyond it

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
					A training course "Proper Use of Weighing Instruments in Testing and Calibration Laboratories, Basic Principles of Calibration, and Quality Assurance" was conducted for interested stakeholders in the field of metrology (14 participants attended the training). On July 10, a training course “Measurement Uncertainty – Approaches and Principles” was held for interested participants in the field of metrology. Market Surveillance: LEPL - Market Surveillance Agency organized five information meeting with relevant economic operators to familiarize them with planned changes to the Technical Regulation on Construction Products. In total, 144 economic operators participated in these meetings. Accreditation: Requires additional donor assistance. On 25 September 2026, a regular meeting of the National Accreditation Council was held. The meeting addressed the Accreditation Center’s nine-month activity report, as well as issues related to the impartiality of the Center’s activities, the establishment of a unified approach in the field of testing laboratories, and the improvement of relevant procedures. The meeting also included the election of a new Chair of the National Accreditation Council.
3.3.2. Organizing training sessions for accredited conformity assessment bodies on standards relevant to their activities	Number of seminars/trainings conducted	Annual report of the Accreditation Center www.gac.gov.ge	LEPL “The Unified National Body of Accreditation – Accreditation Center”	Ministry of Economy And Sustainable Development Of Georgia	In May, a series of training sessions was conducted in two phases (5–6 May and 28–29 May) on „ISO/IEC 17025:2017 – General Requirements for the Competence of Testing and Calibration Laboratories”. The training aimed to strengthen the competencies of laboratory personnel.

2026 III Q Report of the Implementation of the Deep and Comprehensive Free Trade Area Agreement (DCFTA) between Georgia and the European Union and other commitments beyond it

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
3.3.3.. Organization of EA committee and working group meetings in Georgia	Number of working group meetings held.	Annual report of the Accreditation Center www.gac.gov.ge; DCFTA report	LEPL “The Unified National Body of Accreditation – Accreditation Center”	Ministry of Economy and Sustainable Development Of Georgia	From March 24 to 26, 2026, a meeting of the EA Laboratory Committee was held in Tbilisi, attended by nearly 60 representatives from various accredited organizations across Europe.
Objective 3.4.	Strengthening the capacity of the relevant state bodies				
3.4.1. Raising qualifications of the staff in the field of quality Infrastructure	Number of seminars/trainings conducted	DCFTA implementation report; www.dcfta.gov.ge	LEPL- Georgian National Agency for Standards and Metrology LEPL “The Unified National Body of Accreditation – Accreditation Center	Ministry of Economy and Sustainable Development of Georgia	Standards and Metrology: • From 17 to 19 February 2026, representatives of the Metrology Institute participated in the Eastern Partnership regional seminar held in Chisinau, Moldova, within the framework of a PTB project. The seminar, titled “Quality Standards for Enhancing Trade in Eastern Partnership Countries,” addressed regional planning issues in the fields of metrology and accreditation within the Eastern Partnership (EaP) region. • On 19 February 2026, representatives of the Metrology Institute participated in an international online meeting — Online Technical Exchange – Comparison, focusing on the use of the KCDB 2.0 platform of the BIPM in the process of international comparisons. • From 24 to 26 February 2026, a representative of the Metrology Institute participated online in the 6th International DCC Conference, organized by PTB. • On 4 March 2026, a representative of the Metrology Institute participated in a webinar organized by the CCRI on the topic “Optimization of Dosimetric Quantities for Radiation Protection.” • From 24 to 26 March 2026, a representative of the Metrology Institute participated in the EURAMET Technical Committee meeting TC-IR (Ionising Radiation), held in Delft, Netherlands. From 14 to 16 April 2026, a representative of the Institute of Metrology participated in the EURAMET Technical

Georgia and the European Union and other commitments beyond it

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
					Committee for Temperature and Humidity (TC-T) meeting, which was held in Vienna, Austria. From 15 to 17 April 2026, a representative of the Institute of Metrology participated online in the CCRI webinar entitled “Recent Advances in Radiation Protection Dosimetry and the CCM Strategy.” From 14 to 16 April 2026, representatives of the Institute of Metrology participated in the meeting of the EURAMET Technical Committee for Flow (TC-F). On 4 May 2026, a representative of the Institute of Metrology participated in an online meeting held as part of the CaBuCo Project Information Series, organized at the initiative of EURAMET. From 14 to 16 May 2026, a training course on the Calibration of Standard Capacity Measures was held at the Portuguese National Metrology Institute, organized by PTB. Representatives of the Institute of Metrology participated in the training. From 19 to 22 May 2026, representatives of the Agency participated in the Regional Planning Workshop on Standardisation, organized by PTB and held in Yerevan, Armenia. On 28 May 2026, a representative of the Institute of Metrology participated in the webinar "Advances in X-ray Dosimetry: Calibration of X-ray Multimeters." On 29 May 2026, a representative of the Institute of Metrology participated in the meeting of the EURAMET Technical Committee for Electricity and Magnetism (TC-EM) Subcommittee on Power and Energy (SC Power and Energy).

2026 III Q Report of the Implementation of the Deep and Comprehensive Free Trade Area Agreement (DCFTA) between
Georgia and the European Union and other commitments beyond it

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
					On 25 May 2026, representatives of the Institute of Metrology participated in an event organized by Energy Service LLC and Honeywell on the topic "Smart Meters: Technical Characteristics and Areas of Application." From 29 to 30 May 2026, representatives of the Agency's Standards Department participated in a meeting "Improving Pesticide Management in the Fruit and Vegetable Value Chain in Georgia," organized by the Ministry of Environmental Protection and Agriculture of Georgia within the framework of the Global Quality and Standards Programme (GQSP), implemented by the United Nations Industrial Development Organization (UNIDO) with the support of the Swiss Confederation. The meeting was held in Tbilisi. On 2 June 2026, the BIPM organized seminar "KCDB 2.0 – Online Technical Exchanges: CMC Writers and Reviewers." Representatives of the Institute of Metrology attended the seminar. From 17 to 19 June 2026, representatives of the Agency participated in the General Assembly of the European Standardization Organizations (CEN and CENELEC), which was held in Cyprus. On 25 June and 22 September 2026, a representative of the Agency's Standards Department participated in the 6th and 8th International Conference "Tourism and Education," "Standards in Tourism", held at the Telegraph Hotel and organized by the Georgian Tourism Association (GTA). On September 7–10, 2026, representatives of the Agency's Metrology Institute participated in the meeting of the EURAMET Technical Committee for Mass and Related Quantities (TC-M), held in Tallinn, Estonia.

2026 III Q Report of the Implementation of the Deep and Comprehensive Free Trade Area Agreement (DCFTA) between Georgia and the European Union and other commitments beyond it

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
					On September 23–26, 2026, within the framework of the PTB project “Quality Standards for Increased Trade in the Eastern Partnership Countries II”, a representative of the Agency’s Metrology Institute participated as a technical expert in an internal audit conducted at the National Body for Standards and Metrology (NBSM) in Yerevan, Armenia. Accreditation: 1. In the first quarter, the Deputy Director of the Accreditation Center, Giorgi Chitadze, conducted a training on the topic: “ISO/IEC 17011 Conformity Assessment-Requirements for Accreditation Bodies Accrediting Conformity Assessment Bodies” and on quality infrastructure. 2. On February 23, a working meeting was held, organized by PTB, on the implementation of greenhouse gas validation/verification schemes. 3. On June 15, 2026, the first meeting of the Accreditation Steering Committee was held online. The committee was established within the framework of the regional project "Quality Standards for Increased Trade in the Eastern Partnership Countries" by the German National Metrology Institute (PTB). The accreditation bodies of Georgia, Moldova, Ukraine, and Armenia are involved in the implementation of the project. 4. On 25–26 August 2026, the 7th meeting of the Internal Audit and Technical Assessors Working Group was held in Tbilisi within the framework of the Eastern Partnership Accreditation Network (EaP Network). The meeting was organized by the German National Metrology Institute (PTB) and hosted by the Georgian Accreditation Center.
3.4.2. Raising awareness about quality infrastructure among	Number of working group meetings held.	DCFTA Implementation report www. dcfta.gov.ge	LEPL “The Unified National Body of Accreditation –		Requires additional donor assistance.

representatives of state organizations			Accreditation Center” LEPL Georgian National Agency for Standards and Metrology		
Objective 3.5.	Enforcement of the market surveillance in accordance with DCFTA obligations				
3.5.1. Conducting the market surveillance in the supervisory areas of agency based on risk analysis by the LEPL Market Surveillance Agency and issuing relevant recommendations by the Agency in the recently approximated areas	Number of inspections performed (documentary and technical)	Annual report of the agency	LEPL – Market Surveillance Agency		•501 construction and industrial products placed on the market were inspected, of which 42 product samples were technically checked; •424 consumer products placed on the market were inspected, of which 250 product samples were technically checked; •A total of 14 137 import prior notifications were reviewed; •A total of 107 ordinances on restrictive measures were inspected; •130 ordinances were issued on the imposition of a penalty; •94 ordinances were issued on the restrictive measures;
Goal 4.	Promoting trade in products subject to sanitary and phytosanitary measures and protecting the life or health of humans, animals and plants				
Objective 4.1.	Improvement of sanitary and phytosanitary, animal welfare and other legislative measures				
4.1.1. Approximation of Georgian legislation with the relevant normative acts of the European Union in accordance with Annex XI-B to the Association Agreement	Georgian legislation approximated to 19 EU legislative acts (food safety - 9, veterinary - 3, plant protection - 7) listed in Annex XI-B to the Association Agreement	Annual Report on the Implementation of the DCFTA Action Plan; www.DCFTA.gov.ge Legislative Herald of Georgia www.matsne.gov.ge	Ministry of Environmental Protection and Agriculture of Georgia	LEPL National Food Agency;	Food safety: 1. On the basis of Commission Recommendation 2003/598/EC of 11 August 2003 on the prevention and reduction of patulin contamination in apple juice and other apple juice-containing beverages, guidelines were prepared on the prevention and reduction of patulin contamination when apple juice is used as an ingredient in apple juice and other beverages was approved by the Order of Minister No. 2-140 of April 21, 2026. 2. On the basis of Directive 1999/2/EC of the European Parliament and of the Council of 22 February 1999 on the approximation of the laws of the Member States relating to foods and food ingredients treated with microwave

5.2.2 Implementation of Customs Digital Platform ASY5 by	Development of appropriate information technology systems for	Annual Report of the Revenue Service rs.ge	Revenue Service		The main implementation phase of the project has been successfully completed. The platform is intended to progressively replace the relevant functionality of the automated customs data

2026 III Q Report of the Implementation of the Deep and Comprehensive Free Trade Area Agreement (DCFTA) between
Georgia and the European Union and other commitments beyond it

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
Georgian Customs Service	the replacement of existing Customs software ASYCUDA with new Customs Platform ASY5				management system, ASYCUDA World, while improving the efficiency, flexibility, interoperability, and scalability of customs processes. The work completed covers the following key components: • Creation of the national authorized import system (AIS); • Creation of the national export system (AES); • Creation of the National Tariff and Taxation Management System (TMS); • Creation of the National Risk Management System (RMS); • Integration of NCTS-NTA with the new platform; • Implementation of the Customs Decision Management System (CDMS). Accordingly, the project has moved from the development stage to the pilot implementation phase.
5.2.3 Advance Exchange of railway cargo information via digital solutions	Advance supply of information from Georgian Railway to the Customs Authority regarding cargo traveling by rail has been implemented	Annual Report of the Revenue Service rs.ge	Revenue Service		The legislative amendments have been adopted. The effective date of the amendments has been deferred until the data exchange system from the side of the Georgian Railway towards the Revenue Service is fully operational.
Goal 6.	Legislative and institutional approximation in the field of establishment, trade in services and e-commerce with relevant EU legislation				
Objective 6.1.	Develop a legal framework in line with European best practices in telecommunications, e-commerce and postal services and promote the development of the postal market				
6.1.1. Approximation of Georgia's electronic communications legislation to the European Electronic Communications Code (EECC)	Elaborated drafts of legislative changes	dcfta.gov.ge	Ministry of Economy and Sustainable Development of Georgia	National Communications Commission of Georgia	Draft of amendments to the Georgian Law "On Electronic Communications" has been prepared, with the aim of aligning it with the European Parliament following directives: • 2002/58/EC of 12 July 2002 concerning the processing of personal data and the protection of privacy in the electronic communications sector (Directive on privacy and electronic communications); • 2002/20/EC of 7 March 2002 on the authorisation of electronic communications networks and services (Authorisation Directive);

2026 III Q Report of the Implementation of the Deep and Comprehensive Free Trade Area Agreement (DCFTA) between
Georgia and the European Union and other commitments beyond it

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
					• 2002/19/EC of 7 March 2002 on access to, and interconnection of, electronic communications networks and associated facilities (Access Directive); • 2002/21/EC of 7 March 2002 on a common regulatory framework for electronic communications networks and services (Framework Directive). At the same time, in order to introduce universal telecommunications services, a draft amendment to the Law of Georgia “On Electronic Communications” has been prepared in accordance with the European Electronic Communications Code (EECC). Since the update of Annex XV-B, agreed with the European Union, full harmonization of Georgian legislation with the EU Electronic Communications Code (EU) 2018/1972 will be envisaged. The Code repeals the directives mentioned above, currently referenced in the existing version of the Association Agreement, namely Directives 2002/58/EC, 2002/20/EC, 2002/19/EC, 2002/21/EC, and 2002/22/EC. Accordingly, the relevant activities will be carried out in line with the updated annex. Furthermore, since September 2026, work has been underway with the international consulting company EY to align Georgian legislation with the European Electronic Communications Code (EECC). This work includes an analysis of the existing legislation, identification of gaps in compliance with EU legislation, preparation of relevant amendments to the Law of Georgia on Electronic Communications, as well as identification of the necessary secondary legislation and drafting of the relevant legal acts. The work also envisages consultations and workshops with relevant stakeholders.

2026 III Q Report of the Implementation of the Deep and Comprehensive Free Trade Area Agreement (DCFTA) between Georgia and the European Union and other commitments beyond it

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
6.1.2 Adopt the draft law of Georgia "On Post"	Adopted Law on Post	matsne.gov.ge dcfta.gov.ge	Ministry of Economy and Sustainable Development of Georgia		The draft Postal Law and its accompanying laws are planned to be submitted to the Government of Georgia in the near future. Following negotiations with the European Commission on the draft Postal Law, it was agreed that, upon the update of Annex XV-C, Georgia would, in addition to its existing obligations (Directive 97/67/EC as amended by Directives 2002/39/EC and 2008/6/EC) undertake, transposition of the provisions of Regulation (EU) 2018/644 on cross-border parcel delivery services into the draft law, in line with the European Commission's proposal. Although the formal update of Annex XV-C has not yet been finalized, the prepared draft law already reflects both the relevant provisions of the Postal Directives and the European Commission's proposal regarding the incorporation of Regulation (EU) 2018/644 on cross-border parcel delivery services.
Goal 7.	Legislative and institutional approximation in the field of public procurement with relevant EU legislation and institutional capacity building				
Objective 7.1.	Adopt a new law on public procurement and by-laws and develop guidelines, methodological guidelines and instructions on this topic				
7.1.1 Preparation and implementation of legislative amendments in the field of public procurement in accordance with Annexes XVI-C, XVI-D, XVI-E, XVI-F, XVI-G, XVI-H, XVI-I, XVI-J,	Adopted legislative amendments in accordance with the Annexes to the Association Agreement. To ensure compliance with the Concessions	procurement.gov.ge; spa.ge ; www.dcfta.gov.ge www.ppp.gov.ge	LEPL State Procurement Agency(SPA) Ministry of Economy and Sustainable Development		Prior to the entry into force of the new Law on Public Procurement, work is underway to align the existing Law of Georgia "On State Procurement" with EU Directives. Specifically, amendments made to Georgian legislation in May 2026 introduced two significant new features to the existing state procurement regulations: a new mechanism for reserved procurements and new rules regarding the use of subcontractors.

2026 III Q Report of the Implementation of the Deep and Comprehensive Free Trade Area Agreement (DCFTA) between
Georgia and the European Union and other commitments beyond it

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
XVI-K of the Association Agreement	Directive, prepare legislative amendments in accordance with Annexes XVI-D XVI-F, XVI-G, XVI-H XVI-I, XVI-K to the Association Agreement.		LEPL Public Private Partnership Agency (PPP)		As a result of these legislative changes—and in alignment with EU directives—new procurement methods will become available starting December 1, 2026, alongside the introduction of two new state procurement instruments: the "framework agreement" and the "electronic catalogue." Furthermore, the amendments also revise the structure of the registry of unscrupulous entities—commonly known as the "blacklist."
7.1.2 Elaboration and adoption of “secondary legislation” - subordinate normative acts based on the Law on Public Procurement	Preparation of drafts of relevant subordinate normative acts will be ensured	www.procurement.gov.ge; www.spa.ge;	LEPL State Procurement Agency (SPA)		In accordance with the Law of Georgia on Public Procurement, work is underway to develop the secondary legislation, , which will enter into force from January 2030. As a result, with the aim of introducing revised regulations on E-Catalogue, Framework Agreements and Blacklisting, the drafting of secondary legislation is currently in progress.
7.1.3. Develop manuals, methodological guidelines and instructions in accordance with the Law on Public Procurement	Published methodological guidelines, manuals and instructions	Annual Report of the State Procurement Agency; E-Newsletter of the State Procurement Agency; www.procurement.gov.ge; www.spa.ge	LEPL State Procurement Agency (SPA)		The State Procurement Agency consistently pursues the development of new manuals, methodological guidelines, and instructions aimed at raising awareness of new procurement procedures and instructions, as well as new regulations, provisions for both economic operators and contracting authorities. On January 23, an international seminar on research in Energy-Efficient Public Procurement (EEPP) was held in Georgia. The study was prepared in cooperation with GIZ under the program “Enabling the Implementation of Georgia’s Forest Sector Reform - ECO Georgia.” The main aim of the study was to examine existing practices in energy-efficient procurement operations in Georgia, with a view to their further development. Representatives of both central and local authorities, as well as major contracting organizations from the regions, were invited to the seminar.
Objective 7.2.	Modernization of the unified electronic system of public procurement				

2026 III Q Report of the Implementation of the Deep and Comprehensive Free Trade Area Agreement (DCFTA) between Georgia and the European Union and other commitments beyond it

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
7.2.1. Development/implementation on of services, procedures and tools of New e-Procurement of the Unified Electronic System of State Procurements (eProcurement)	Individual services, modules and capabilities introduced in addition to the Unified Electronic System for Public Procurement	Test mode of the modernized unified electronic system of state procurement (e-Procurement; Electronic Government Procurement system); Annual report of the State Procurement Agency; e-Newsletter of the State Procurement Agency; www.procurement.gov.ge ; www.spa.ge	LEPL State Procurement Agency (SPA)	Digital Governance Agency of the Ministry of Justice Financial and Analytical Service of the Ministry of Finance	To enhance the efficiency of electronic services, as of the third quarter of 2026, the following key functionalities have been implemented: - Effective January 1, 2026, conducting market research has become mandatory requirement for procuring entities. Accordingly, amendments were introduced to the brand-new Market Research System (MRS) module within the e-Procurement system. - Following the establishment of the new legal entity of public law - LEPL Central Purchasing Body, a new website cpb.gov.ge was launched and is currently under construction. - New procurement methods, such as Joint, Purchasing, Alternative Purchasing and Reserved Contracts have been integrated into the e-tendering system. - Bidders now have the capability to specify subcontractors upon submission of their bids.
Objective 7.3.	Human resource development in the field of public procurement				
7.3.1 Implementation of trainings based on the new law on public procurement for relevant employees of public procurement Agency	The number of trained employees of state procurement agency, 20 trained employees	Annual Report of the State Procurement Agency e-Newsletter of the State Procurement Agency; www.procurement.gov.ge ; www.spa.ge	LEPL State Procurement Agency (SPA)	GIZ	On 16–20 February, with the support of the Turkish Cooperation and Coordination Agency (TIKA), an official delegation of the State Procurement Agency conducted a study visit to the Public Procurement Authority of Turkey (KIK) in Ankara. The purpose of the visit was to share advanced experience in the field of public procurement, including legislation and related reforms, institutional arrangements, dispute resolution mechanisms in procurement processes, development of electronic systems, as well as practices related to transparency, monitoring, and control.

2026 III Q Report of the Implementation of the Deep and Comprehensive Free Trade Area Agreement (DCFTA) between Georgia and the European Union and other commitments beyond it

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
					In order to further deepen mutual relations in the field of public procurement, a memorandum of cooperation was signed between the respective institutions. On June 8–9, the 18th PRIMO Forum took place in Istanbul. The meeting was co-organized by the Public Procurement Authority of Türkiye and PRIMO's partner international financial and donor organizations: ADB, EBRD, IDB, EIB, and AIIB. The forum addressed some key topical global issues around the public procurement, such as innovation, driving sustainability, and the integration of technology in the era of AI. The international seminar was attended by senior officials from the State Procurement Agency, representatives of international organizations, and government officials from various Asian and European countries.
7.3.2 Implementation of trainings based on the new law on public procurement for procurement organizations, economic operators and other interested parties	Number of trained employees of procuring organizations, economic operators and stakeholders: 15 streams during the 2026 academic year. Total 420 trainees.	Annual Report of the State Procurement Agency e-Newsletter of the State Procurement Agency; www.procurement.gov.ge ; www.spa.ge	LEPL State Procurement Agency (SPA)	GIZ; Chamber of Commerce and Industry; Business associations	Between January and September, 9 training courses on the "State Procurement Course" were held at the training center of the State Procurement Agency. Within the scope of above courses, total of 231 specialists were trained, who operate as procurement specialists at various public authorities and its' subordinate LEPL's and LTD's, at local self-government bodies and its' Non-Entrepreneurial Non-Commercial Legal Entities. After completion of the courses based on the written test results, participants were awarded with Certificates of attendance. A new study module on "Practical Action" has been introduced and integrated into the Training Center's two-week general study curriculum. The new study module enables participants to apply theoretical knowledge in practice, explore key practical features of the E-Procurement System and receive direct feedback from trainers.

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
					Additionally, Online Learning Modules are now available to participants covering three priority thematic areas: Key considerations for the regions, Market Research matters and specialized meetings regarding construction procurement. A total of 1430 specialists completed training via the Online Learning Modules. The training programs developed by the Training Center are based on EU directives and recent innovations in the field of public procurement.
Goal 8.	Approximation to the EU standards and best practices in the field of intellectual property				
Objective 8.1	Ensuring access to justice in the field of intellectual property				
8.1.1 Conduct trainings on intellectual property rights for representatives of relevant government or executive agencies.	Number of organized trainings (At least five trainings/seminars/working meetings.)	www.Sakpatenti.gov.ge	LEPL National Intellectual Property Center of Georgia – “Sakpatenti”	LEPL High School of Justice	On March 4, 5 and 6, a 12-hour online training course “Copyright Protection in the Process of Developing Textbooks” was held for members of the working group formed by the Ministry of Education, Science and Youth of Georgia to develop school textbooks. The training was attended by 24 participants. On March 19 and 20, an 8-hour training session titled “Intellectual Property at Museums: Practical and Legal Aspects” was delivered to the staff of the Georgian National Museum. The training was attended by 11 participants. On April 28-29, an International Conference on the Riyadh Design Law Treaty (RDLT) and the Hague System for the International Registration of Industrial Designs was held, organized by the World Intellectual Property Organization (WIPO) and Sakpatenti. The conference, held in the format of a working meeting, brought together high-level representatives from WIPO and 14 European countries, as well as representatives of the Government of Georgia, the

2026 III Q Report of the Implementation of the Deep and Comprehensive Free Trade Area Agreement (DCFTA) between
Georgia and the European Union and other commitments beyond it

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
					private sector, and industry experts. The Conference was aimed to strengthen international cooperation in the intellectual property field, demonstrate the role of design in modern economy and creative industries, as well as discuss the importance of the Riyadh Design Law Treaty (RDLT) and the Hague System. The event served sharing experience, improvement of the design protection mechanisms and facilitation of approximation to the international standards.
Objective 8.2.	Institutional strengthening of the LEPL National Intellectual Property Center of Georgia – Sakpatenti				
8.2.1. Holding trainings and workshops for Sakpatenti employees; Organizing bilateral meetings and seminars with third country governments and industrial associations to share best practices and experience of developed countries	Number of meetings and trainings organized for employees (at least 5 trainings/working meetings/seminars)	www.Sakpatenti.gov.ge	LEPL National Intellectual Property Center of Georgia – “Sakpatenti”		On February 17-19, 2026, Sakpatenti representative attended the session of the Working Group on the Development of the Lisbon System, organized by WIPO, aimed to improve the effectiveness of the system in the direction of international protection of geographical indications. On February 24 and 26, coaching sessions were held by experts of the European Patent Office (EPO) for the staff members of the Chemistry-Medicine and Biology Division, Department of Inventions and New Varieties and Breeds, Sakpatenti, aimed to share experience in patent examination in the field of genetic engineering, to support professional development and introduce the EPO’s standards and tools used at the examination stage. The coaching was attended by 9 staff members. On March 16, an online training session “AI and the Future of IP Examination” was held in cooperation with the International Trademark Association (INTA), for intellectual property specialists, trademark experts, patent attorneys, representatives of public agencies and the academic circles. The training was attended by 62 participants. On March 30 - April 2, 2026, Sakpatenti staff members attended the session of the Standing Committee on the Law of Trademarks, Industrial Designs and Geographical Indications (SCT), aimed to continue discussion between the member

					experience and get acquainted with the specificity of the activity of the National Intellectual Property Center and examination procedures on-site. On April 20, 2026, the International Conference: “From Research to Impact: The Role of Patents in Technology Transfer” was held, organized by Sakpatenti. The event brought together leading experts from relevant fields, as well as leaders from academic and institutional sectors. From April, as a result of cooperation between Sakpatenti and the European Patent Office (EPO), a selection of up to 30 free online self-paced courses of the EPO Academy has been made available to the general public in Georgia. This initiative provides free access to high-quality patent education and supports intellectual property knowledge and professional development. On April 30, 2026, Sakpatenti hosted students of the Faculty of Power Engineering of the Georgian Technical University. Students of the Bachelor's Program in Engineering Management of the Faculty of Power Engineering visited Sakpatenti's head office as part of a study visit. At Sakpatenti, the students became acquainted with the ongoing works in the field of trademarks, geographical indications and design, as well as inventions and new varieties and breeds. The spring session of the General Course on Intellectual Property (DL101GE26S1) started on May 5 and ended on June 11. Of 174 registered participants, 99 (56.8%) wrote the final test. Of these, 98 participants successfully passed the exam. On June 17, 2026, Sakpatenti presented to Terjola municipality kindergartens educational resources printed at the Office's printing facility: 100 copies of the curriculum methodological manual intended for children aged 2 to 6 and

					Türkiye, and Azerbaijan, completed an intensive academic program at the Sakpatenti Intellectual Property Education and Training Center as part of the International Summer School on Intellectual Property Law. On September 21-25, 2026, in cooperation with the World Intellectual Property Organization (WIPO), the Advanced Certificate Training Program on Geographical Indications was conducted at Sakpatenti, attended by representatives from 10 countries.
8.3.2. Publication of information booklets and flyers	Number of published information materials	Published booklets and flyers	LEPL National Intellectual Property Center of Georgia – “Sakpatenti”		In the reporting period (January–September), publication and printing of informational and educational materials continued. In total, 2777 items of informational material were printed: Booklet “Protect Your Trademark Worldwide” – circulation: 2400 copies (1st - 2nd quarters: 1400 copies; 3rd quarter: 1000 copies); Scientific-popular magazine “Mematiane” No. 1 – circulation: 215 copies; “Creative Diary” – circulation: 40 copies; Journal “Georgian Appellations of Origin and Geographical Indications” (in the English language) – circulation: 12 copies; Journal “Georgian Appellations of Origin and Geographical Indications” (In the Georgian language, additional circulation) – circulation: 5 copies; Journal “Georgian Appellations of Origin and Geographical Indications” Part 2 (in the Georgian language) – circulation: 105 copies
Objective 8.4.	Raising awareness in the field of intellectual property				
8.4.1. Conducting workshops and seminars for owners of intellectual property rights and stakeholders to raise awareness	Number of workshops and trainings for owners and stakeholders (at least 3 trainings/seminars and/or working meetings)	www.Sakpatenti.gov.ge	LEPL National Intellectual Property Center of Georgia – “Sakpatenti”		The implementation of the activity is planned throughout the subsequent quarters of 2026.

2026 III Q Report of the Implementation of the Deep and Comprehensive Free Trade Area Agreement (DCFTA) between Georgia and the European Union and other commitments beyond it

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
Objective 8.5.	Implement effective measures against counterfeit and piracy				
8.5.1 Adoption of the Georgian Law "On Trade Secrets" in order to bring Georgian legislation into line with Directive 2016/943 of the European Parliament and of the Council of 8 June 2016 on the protection of undisclosed know-how and business information (trade secrets) against their unlawful acquisition, use and unlawful disclosure	Preparation of Draft Law of Georgia "On Trade Secrets"	www.Sakpatenti.gov.ge	LEPL National Intellectual Property Center of Georgia – "Sakpatenti"		The draft Law of Georgia "On Trade Secrets" was prepared with the resources of Sakpatenti. Due to the content of the draft Law, the difficulty and complexity of the subject of regulation, the prepared draft Law was sent to various agencies for comments and suggestions. At present, the presented positions are being discussed.
Goal 9.	Develop competition and trade remedy fields in line with EU best practices				
Objective 9.1.	Raising awareness on competition policy and trade remedies among public and private sector representatives				
9.1.1. Organizing seminars and meetings on the current issues of competition policy	Number of seminars and information meetings held	Annual report of the agency, www.gcca.gov.ge	LEPL Georgian Competition and Consumer Agency		In the first 9 months of 2026, organized by the Agency and supported by the Ministry of Education, Science, and Youth, Agency representatives held 24 meetings in public schools across Georgia. These sessions aimed to raise public awareness regarding competition and consumer protection policies. Additionally, the representative of the agency participated in the business forum 'NextGen Business Forum 2026', held within the framework of cooperation between Saint Andrew the First-Called Georgian University of the Patriarchate of Georgia (SANGU) and Northern Kentucky University (NKU, USA). During the forum, the representative spoke about the

					fundamental importance of state competition policy in terms of the country's economic development and ensuring a healthy competitive environment in the markets. Additionally, organized by the agency's training and research center, the agency representatives held an informational meeting with students from the Faculty of Economics and Business of Batumi State University. The main topics of the discussion were the protection of competition and consumer rights, recent legislative changes, and important decisions made by the agency. Organized by the Agency's Training and Research Center, students from Kutaisi International University completed a remote internship program at the Agency. Additionally, organized by the Agency, an educational meeting with local youth was held at the Rustavi Youth Center in the Digital Development Space. Up to 50 schoolchildren and university students aged 18 to 29 attended the event.
9.1.2. Organizing seminars and meetings for representatives of the private sector on the use of anti-dumping measures	Number of seminars and information meetings held	Annual report of the agency, www.gcca.gov.ge	LEPL Georgian Competition and Consumer Agency		Organized by the Agency, a seminar was held to raise awareness regarding WTO trade defense measures, specifically anti-dumping actions. The event was attended by representatives of the executive and legislative branches, business associations, and companies interested in the anti-dumping measures system. Held within the framework of the World Trade Organization (WTO) Technical Assistance Program, the objective of this two-day event was to enhance the awareness of Georgia's public and private sector representatives concerning the legal and methodological framework of WTO trade defense and anti-dumping measures. These meetings served to institutionally strengthen the investigating authority and other relevant public entities.
Objective 9.2.	Improving the qualification of employees				

2026 III Q Report of the Implementation of the Deep and Comprehensive Free Trade Area Agreement (DCFTA) between
Georgia and the European Union and other commitments beyond it

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
9.2.1. Organizing trainings / seminars / study visits on current issues of competition policy	Number of trainings / seminars / study visits conducted	Annual report of the agency, www.gcca.gov.ge	LEPL Georgian Competition and Consumer Agency		In the first 9 months of 2026, Agency representatives participated in 12 capacity-building events organized by various international organizations and competition authorities, including the ICN, OECD, OECD-GVH, and the World Bank, Turkish, Cypriot, and Uzbek Competition authorities Additionally, organized by the agency's training center, a training course titled 'Artificial Intelligence (AI) and Case Management Tools Training Program' was held for the agency's employees, aiming to implement modern technologies in the agency and promote their professional use.
9.2.2. Raising the qualification of the Agency staff in relation to the use of anti-dumping measures	Number of trainings / seminars / study visits conducted	Annual report of the agency, www.gcca.gov.ge	LEPL Georgian Competition and Consumer Agency		A representative of the Agency's Anti-Dumping Measures Department participated in a seminar organized by the World Trade Organization (WTO) in Geneva.
Objective 9.3.	Approximation regulatory acts of competition policy with EU legislation				
9.3.1 Implementing amendments to regulatory legal acts in the field of competition policy (primary and secondary legislation) to ensure harmonization with EU legislation.	Amended/Adopted Legal Acts	Georgian legislative herald, Annual report of the agency, www.gcca.gov.ge	LEPL Georgian Competition and Consumer Agency	Government of Georgia, Parliament of Georgia	A series of amendments were made to the Agency Chairman's Decree No. 39 of October 26, 2020, 'On the Approval of the Rule on Submission and Consideration of Notification on Concentration.' These amendments aim to ensure more effective enforcement of concentration control and align with current trends and practices in the European Union, including Regulation 139/2004.
Goal 10.	Facilitating sustainable development				
Objective 10.1.	Sustainable management of natural resources and contribution to the conservation				

2026 III Q Report of the Implementation of the Deep and Comprehensive Free Trade Area Agreement (DCFTA) between Georgia and the European Union and other commitments beyond it

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
10.1.1. Conducting research on priority species in the Black Sea area within the framework of close and Continuous Cooperation between the Ministry of Environmental Protection and Agriculture of Georgia and FAO/GFCM	Number of surveys and target fish species conducted in the framework of the BlackSea4Fish project	Annual Report on the Implementation of the DCFTA Action Plan; www.dcfta.gov.ge	The Ministry of Environmental Protection and Agriculture	The State Sub-Agency Department of Environmental Supervision LEPL National Environmental Agency	On February 4, 2026, a grant agreement was signed between the Food and Agriculture Organization of the United Nations (FAO) and the LEPL National Environmental Agency (NEA) for the implementation of the project "Monitoring and Data Collection in Georgian Black Sea Fisheries". Within the framework of the project, the Fisheries, Aquaculture and Aquatic Biodiversity Department of the National Environmental Agency implemented the following activities 1. Astandardized scientific beam trawl survey for rapa whelk (<i>Rapana venosa</i>) along the Georgian Black Sea coast (Gonio–Anaklia section) - A scientific marine expedition was conducted along the Georgian Black Sea coastal zone (Gonio–Anaklia section)., during which Rapa whelk samples were collected at 23 preselected sampling stations. The biological samples were processed, a standardized database was developed, and statistical analyses and stock assessment were carried out in accordance with internationally recognized methodologies; 2. Comparative bottom-set gillnet mesh size trials for turbot (mesh sizes of 340 mm, 360 mm, and 400 mm) - Between 5 March and 15 May 2026, eleven scientific fishing surveys were carried out in the Gonio coastal waters. During the surveys, The selectivity and efficiency of bottom gillnets with three different mesh sizes (340 mm, 360 mm, and 400 mm) were evaluated. Biological data on turbot were collected, bycatch species were recorded, and a corresponding standardized database was established; 3. Socio-economic data collection on fishermen - Two stakeholder meetings were held in the cities of Poti and Batumi, bringing together commercial fishers, representatives of fishers' organizations, GFCM experts, and staff of the Fisheries, Aquaculture and Aquatic Biodiversity

2026 III Q Report of the Implementation of the Deep and Comprehensive Free Trade Area Agreement (DCFTA) between
Georgia and the European Union and other commitments beyond it

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
					Department of the National Environmental Agency. During these meetings, socioeconomic data were collected from fishers using the GFCM standard questionnaires The implementation of the activities envisaged within the project has been completed, and final technical reports have been submitted to the GFCM Secretariat. Standardized databases have been prepared and uploaded to the BlackSea4Fish project platform. On 25 March 2026, following the signing of the Grant Agreement between the Food and Agriculture Organization of the United Nations (FAO) and the LEPL National Environmental Agency (NEA), the implementation of the project “Experimental Demersal Trawl Survey in the Waters of Georgia” was launched. Within the framework of the project “Experimental Demersal Trawl Survey in the Waters of Georgia”, the Department of Fisheries, Aquaculture and Water Biodiversity of the LEPL National Environmental Agency carried out the following activities: Between 25 and 30 June 2026, a four-day scientific marine survey was carried out along the Georgian Black Sea coast (Sarpi–Poti section). During the expedition, surveys were carried out at 20 preselected sampling stations using the standardized demersal trawl provided to the National Environmental Agency by FAO under the project. Biological samples of target demersal species, including red mullet, whiting, turbot, and spiny dogfish, were collected. Laboratory processing of the samples, biological analyses, and data processing are currently underway. The second phase of the survey is planned for autumn 2026.

2026 III Q Report of the Implementation of the Deep and Comprehensive Free Trade Area Agreement (DCFTA) between
Georgia and the European Union and other commitments beyond it

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
					The laboratory processing of the samples collected during the first stage of the demersal survey has been completed. Databases have been prepared in accordance with the relevant templates. Preparatory activities for the implementation of the second stage of the demersal survey are currently underway, including the determination of the sampling stations with the involvement of an international expert. Intensive cooperation is ongoing with the regional fisheries management organization—the General Fisheries Commission for the Mediterranean (GFCM)—to combat illegal, unreported and unregulated (IUU) fishing, gain international (European) experience in the use of modern technologies for recording and monitoring small-scale fisheries, and strengthen the capacity of the competent control authority. Within the framework of this cooperation, a representative of the Department of Environmental Supervision participated in the 19th meeting of the Compliance Committee of the General Fisheries Commission for the Mediterranean of the Food and Agriculture Organization of the United Nations (FAO/GFCM), held in Rome, Italy, from 14 to 18 September 2026. The Department also regularly provides the relevant structural unit of the Ministry (the GFCM focal point) with information on commercial fishing activities in the Black Sea, in accordance with the descriptors set out in the Data Collection Reference Framework (DCRF) manual, as part of cooperation on data exchange with FAO/GFCM.
10.1.2. Development of the National Biodiversity Strategy	Draft of National Biodiversity Strategy and Action Plan developed	Annual Report on the Implementation of the DCFTA Action	Ministry of Environmental Protection and Agriculture of		The second phase of the project has begun. The NBSAP tender has been completed, the winning company has been identified, and relevant work is underway

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
		Plan www.dcfta.gov.ge			A public meeting with stakeholders was held on July 7 to announce the launch of the project and working groups were established. Four working group meetings were held, during which, in consultation with stakeholders. potential activities for the relevant sectors were identified.
10.2.3 Start the updating of Georgia's Climate Change 2030 Strategy for the implementation of the updated NDC 3.0	Experts have been selected for the update of the Georgia's Climate Change 2030 Strategy At least 2 working groups have been formed.	Annual report on the implementation of the DCFTA National Action Plan www.dcfta.gov.ge	Ministry of Environment Protection and Agriculture of Georgia	ICAT (Initiative for Climate Action Transparency)	The update of the Georgia Climate Change Strategy has been launched. The project is supported by the United Nations Office of Project Services (UNOPS) and is being implemented by the Regional Environmental Center for the Caucasus (RECC). On July 7, a public meeting with stakeholders was held to announce the launch of the project and working groups were established. Four working group meetings were held, during which an outline of the changes to be made to the strategy was identified.
10.2.4 Start the development of the National Adaptation Plan (NAP) on Climate Change	A governance and coordination mechanism has been established At least 4 working groups have been formed.	Annual report on the implementation of the DCFTA National Action Plan www.dcfta.gov.ge	Ministry of Environment Protection and Agriculture of Georgia	UNEP	The development of the National Adaptation Plan (NAP) has been launched. The project is being implemented with the financial support of the Green Climate Fund (GCF), the international partner of the project is the United Nations Environment Programme (UNEP), and the LEPL Environmental Information and Education Center coordinates the project at the national level. The company "Ecoton" was selected to implement the project. The opening event was held on June 5, where the activities planned within the framework of the project, coordination mechanisms and the framework for stakeholder engagement were discussed, as well as the project objectives and its future implementation plan were presented. Working meetings were held on July 9 and 10, where sectoral groups were formed and stakeholders were included in these groups.

2026 III Q Report of the Implementation of the Deep and Comprehensive Free Trade Area Agreement (DCFTA) between
Georgia and the European Union and other commitments beyond it

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
					A roadmap for the development of NAP and a communication strategy have been prepared. Besides development of financial instruments for the document's implementation has been started.
10.2.5 Preparation of Georgia's Second Biennial Transparency Report (BTR 2) to the UN Framework Convention on Climate Change (UNFCCC)	A working group for the preparation of the BTR 2 is established; First drafts of BTR 2	Annual report on the implementation of the DCFTA National Action Plan www.dcfta.gov.ge	Ministry of Environment Protection and Agriculture of Georgia	RECC	The development of BTR-2 has been started. The Global Environment Facility (GEF) is providing financial support for the document's development, while the process at the national level is being coordinated by the LEPL Environmental Information and Education Centre (EIEC). The EIEC has prepared the necessary terms of references and announced tenders to select the organizations that will be tasked with development of the document.
Objective 10.3.	Ensuring the protection of labor rights in accordance with international standards				
10.3.1 Awareness raising of employers and employees on labour norms	The number of informational/working meetings – at least 30 The number of consultations provided through hotline (1575); - at least 10 000 The number of materials prepared on issues related to child labor, anti-discrimination provisions in labor relations, forced labor, labor exploitation, occupational safety, and other labour standards.	Annual report of the Labour Inspection office Web page of Labour Inspection office - www.lio.moh.gov.ge	LEPL Labour Inspection office	Ministry of Internally Displaced Persons from the Occupied Territories, Labour, Health and Social Affairs of Georgia	As of the end of the third quarter of 2026, the Consultation Center / Hotline (15-75) of the LEPL Labour Inspection Office (LIO) provided consultations for 11 977 incoming calls. Additionally, two videos were disseminated through social networks of LIO's Facebook page, YouTube channel, and official website—addressing issues related to temporary incapacity for work and sick leave, as well as the new occupational safety awareness campaign, "Hazards Don't Warn – Safety Must Be Planned!" It is also worth noting that, as part of the occupational safety campaign “Danger Doesn’t Give Warning — Safety Must Be Planned!”, representatives of the Labour Inspection Office participated in five media broadcasts, during which compliance with occupational safety standards, the importance of preventive measures, and matters related to the Office’s mandate were discussed. Furthermore, six digital banners in Georgian were developed as part of the campaign.

2026 III Q Report of the Implementation of the Deep and Comprehensive Free Trade Area Agreement (DCFTA) between
Georgia and the European Union and other commitments beyond it

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
					The banners were disseminated through the Office's social media channels and official website. During the reporting period, a total of 592 information sessions were held, providing information on recent legislative developments, labour standards, the mandate of the Labour Inspection Office, the results of its activities, and other relevant thematic issues. Particular mention should be made of a further awareness-raising campaign conducted by the LEPL Labour Inspection Office of Georgia in August 2026 to promote the effective enforcement of occupational safety standards under high-temperature conditions. The campaign developed 4 digital banners and raised awareness among 584 construction companies operating in Tbilisi, Batumi, Kutaisi, Marneuli, Rustavi, Gardabani, Mtskheta, and Gori. It reached 6,585 people employed at construction sites. In addition, four digital banners were developed to address labour rights and other thematic and occupational issues, taking into account seasonal considerations.
10.3.2 Institutional development of the LEPL - Labour Inspection Office	At least 1 basic training has been carried out in accordance with the internal training plan in order to strengthen the professional skills of labor inspectors.	Annual report of the Labour Inspection office Web page of Labour Inspection office - www.lio.moh.gov.ge	LEPL Labour Inspection office	Ministry of Internally Displaced Persons from the Occupied Territories, Labour, Health and Social Affairs of Georgia	During the reporting period, 4 training sessions were conducted for the Labour Inspection Office's officials responsible for carrying out labour inspections, including both existing and newly recruited staff members.
10.3.3 Functioning of the LEPL - Labour Inspection Office in accordance with the extended mandate	Over the course of the year, a total of at least 2,500 inspections are conducted within the scope of the mandate,	Annual report of the Labour Inspection office Web page of	LEPL Labour Inspection office	Ministry of Internally Displaced Persons from the Occupied	During the reporting period, the LEPL Labour Inspection Office carried out 5 144 activities (including initial and follow-up inspections until the elimination of violations, as well as monitoring activities), covering 2 986 establishments within the scope of primary supervision.
