

2024 Annual Report of the Implementation of the EU-Georgia Deep and Comprehensive Free Trade Area Agreement (DCFTA)

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
Goal 1.	Further improvement in the field of trade statistics				
Objective 1.1	Calculation of Foreign Trade Indices (Export-Import Unit Value Indices)				
1.1.1. Recalculation of the value of imported goods from CIF - free-frontier prices of the importing country to FOB - free-frontier prices of the exporting country.	Development of calculation methodology from CIF - free-frontier prices of the importing country to FOB - free-frontier prices of the exporting country	Statistical data about FOB-type value of imported goods are presented on the website: www.geostat.ge	National Statistics Office of Georgia	National Bank of Georgia	A draft version of the calculation methodology for converting CIF - free-at-frontier prices in the importing country to FOB - free-at-frontier prices in the exporting country has been developed.
Goal 2.	Promoting exports to the EU				
Objective 2.1.	Diversification of export products within the EU				
2.1.1 Promoting the participation of Georgian companies in international events, exhibitions and trade missions in EU countries	Number of exporting companies participating in international events, exhibitions and trade missions in EU countries Number of international events, exhibitions and trade missions in EU countries	Annual Report of LEPL Enterprise Georgia Enterprisegeorgia.gov.ge	LEPL-Enterprise Georgia		In 2024, with the support of agency, Georgian small and medium businesses participated in 11 international exhibitions and 1 showroom during the fashion week, in Germany, Italy, Portugal, Spain and France. In total, the agency co-financed 97 cases of Georgian companies' participation in the above-mentioned events.
Objective 2.2.	Improving access to finance for small and medium-sized businesses				
2.2.1. Support of small and medium enterprises within the framework of loan/leasing interest co-financing program	Number of co-financed enterprises	Annual Report of LEPL Enterprise Georgia enterprisegeorgia.gov.ge	LEPL- Enterprise Georgia		As of 2024, 648 loans/leases were approved for 565 enterprises within the universal program, with the total amount of GEL 487 mln. The projects entail investments of more than 1 billion GEL and plan to create more than 5,500 jobs.
Objective 2.3.	Development of small and medium business export opportunities				
2.3.1. Training of export managers of small and medium businesses	Number of certified export managers	Annual Report of LEPL Enterprise Georgia enterprisegeorgia.gov.ge	LEPL- Enterprise Georgia	Selected higher educational institution	As of 2024, two export manager certification courses were conducted in Tbilisi and Batumi. In total, 71 managers were trained.
2.3.2. Promoting the platform “Trade with Georgia” and increasing its usage	Number of companies registered on the platform	Annual Report of LEPL- Enterprise Georgia enterprisegeorgia.gov.ge	LEPL- Enterprise Georgia		In 2024, up to 50 companies registered on Tradewithgeorgia platform
2.3.3. Implementation of technical assistance program for export promotion.	Number of supported export-oriented companies	Annual Report of LEPL Enterprise Georgia Enterprisegeorgia.gov.ge	LEPL- Enterprise Georgia		As of 2024, 26 companies were financed within the technical assistance program.

2024 Annual Report of the Implementation of the EU-Georgia Deep and Comprehensive Free Trade Area Agreement (DCFTA)

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
Goal 3.	Legislative and institutional approximation with relevant EU legislation and best practice in the field of technical barriers to trade				
Objective 3.1.	Elaboration of legislation that Georgia has undertaken to approximate in accordance with Annex III-A to the Association Agreement				
3.1.1. Adoption of international and European standards, including harmonized standards of sectoral directives specified in Annex III-A of DCFTA, as Georgian standards	The number of European and/or International Standards adopted as Georgian standard	Decrees of the General Director of the Agency regarding adoption of standards; Georgian standards electronic platform: www.sst.geostm.gov.ge	LEPL – Georgian National Agency for Standards and Metrology (GEOSTM)		As of 2024 year, the Georgian National Agency for Standards and Metrology (GEOSTM) has adopted 8,805 standards as Georgian standards (GES), among them: <ul style="list-style-type: none"> GES ISO/IEC (International Standard) 235; GES EN (European Standard) 8, 570; <p>The work for further harmonization with European standards is underway.</p>
3.1.2. Elaboration of a technical regulations for approximation of legislation with the MID (Measuring Instruments Directive) and NAWI (Non-automatic weighing instruments) Directives. Implementation of changes to the Code of Product Safety and Free Circulation to ensure compliance with Regulation 2012/1025 of the European Parliament and of the Council	Adopted technical regulations; Amendment to the law	Legislative Herald of Georgia matsne.gov.ge	Ministry of Economics and Sustainable Development of Georgia	LEPL – Georgian National Agency for Standards and Metrology (GEOSTM)	Draft legislative amendments necessary for the approximation with the Directives on non-automatic weighing instruments (NAWI) and on measuring instruments (MID) are prepared, an amendment was made to the Product Safety and Free Movement Code, according to which mentioned directives must be adopted until January 1, 2025. In December 2024, the Government of Georgia adopted Resolution N480 “On Approval of the Technical Regulations on Measuring Instruments” and Resolution N481 “On Amendments to the Technical Regulations on Non-Automatic Weighing Instruments”. In order to further approximate with the European Regulation (2012/1025) in the field of standardization, amendments were made to the Law of Georgia "On Amendments to the Product Safety and Free Movement Code" (https://matsne.gov.ge) (document number: 4373-XV66-X03; publication date: 31 /07/2024).
3.1.3 Amendment of Decree N476 of the Government of Georgia of October 1st, 2018 "Adopting the Technical Regulation on Construction Products"	Amendment of the Decree of the Government of Georgia	Legislative Herald of Georgia Matsne.gov.ge	Ministry of Economy and Sustainable Development of Georgia	LEPL-Market Surveillance Agency	According to the Resolution N106 of the Government of Georgia of March 28, 2024, an amendment was made to the "Technical Regulations on Construction Products" and 101 new construction products were covered.
3.1.4 Implementation of the amendments regarding product’s safety and free circulation code to ensure compliance with European Parliament and EC regulations 2019/1020 and 2023/988	Amendment of Product’s safety and free circulation code	Legislative Herald of Georgia Matsne.gov.ge	Ministry of Economy and Sustainable Development of Georgia	LEPL-Market Surveillance Agency	Within the Twinning Project 'Advancing the Capacities of the Market Surveillance Agency of Georgia', the draft amendment to the Law of Georgia on Product Safety and Free Movement Code was prepared. The first stage of amendments, addressing the liabilities of economic operators and updating existing penalties to ensure they are effective, proportionate, and dissuasive, was adopted by the Parliament of Georgia on July 28, 2024. This amendment complies with the provisions of the European Parliament and Council Regulations 2019/1020 and 2023/988.
3.1.5 Implementation of the amendments regarding product’s safety and free circulation code to ensure compliance with European	Amendment of Product’s safety and free circulation code	Legislative Herald of Georgia Matsne.gov.ge	Ministry of Economy and Sustainable Development of Georgia	LEPL- Unified National Accreditation Body- accreditation center	In July, this year the amendments to the Georgian law on code on safety and free movement of products were conducted by the parliament of Georgia. In parallel to other amended parts, chapter 9 – accreditation, was also renewed. All principles derived from the EU regulation 765/2008 were reflected into the chapter. At the same time, terms used in

2024 Annual Report of the Implementation of the EU-Georgia Deep and Comprehensive Free Trade Area Agreement (DCFTA)

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
Parliament and EC regulations 765/2008					accreditation were also revised according to the international standard iso/iec 17011.
3.1.6 Preparation of technical regulations according to the Directive 2014/30/EU of the European Parliament and Council of 26 February 2014 on the harmonization of the laws of the Member States on electromagnetic compatibility	Adopted technical regulations	Legislative Herald of Georgia Matsne.gov.ge	Ministry of Economy and Sustainable Development of Georgia	LEPL-Market Surveillance Agency	Draft resolution of the Government of Georgia "On Approval of Technical Regulations on Electromagnetic Compatibility" has been prepared. After the consultations with relevant agencies, the draft regulation will be submitted to the Government of Georgia for approval.
Objective 3.2.	Institutional and infrastructural development necessary for technical regulation, standardization, metrology, accreditation, conformity assessment and market surveillance administration				
3.2.1. Continuation of the process of modernising the equipment of reference laboratories in order to provide improved services in priority areas	Increased number and range of services offered (Procurement of additional new equipment for reference divisions/labs in one direction)	Calibration certificates issued by the Agency Annual Report of the agency	LEPL – Georgian National Agency for Standards and Metrology (GEOSTM)		During the reporting period the following measuring instruments were purchased/delivered: a breathalyzer for the physic-chemical reference laboratory and a digital temperature calibrator for the temperature and humidity reference laboratory, sensors for the laboratory of geometric measurements.
3.2.2. Taking necessary measures to maintain and / or expand the international recognition of priority reference laboratories in metrology field	The number of agency recognised CMC entries calibration and measuring capabilities	BIPM database www.bipm.org	LEPL – Georgian National Agency for Standards and Metrology (GEOSTM)		<p>The number of internationally recognized calibration and measurement capability (CMC) records of the Agency is maintained at 65 records.</p> <p>In order to maintain international recognition, as well as to ensure the traceability of measurements, the metrology institute of the Agency has prepared calibration programs for references and measuring instruments for 2024. In November - December 2024, References/measuring instruments calibrations were completed in the Czech Republic, Poland, Turkey and Germany, after which they were delivered to the agency. Participation in EURAMET regional key comparisons in the field of temperature measurements began. The final results of the comparison were sent to the pilot laboratory (CEM - Spanish Institute of Metrology) in November.</p> <p>During March 11-16, the representatives of the reference laboratory of temperature and humidity participated in the key comparison (Subsequent comparison) CCT-K9.3X-comparison (the instrument participating in the measurements SPRT). They also attended the process of the first measurements of the thermometer at the Spanish Metrology Center and reviewed the details of the comparison.</p>
3.2.3. Implementation of Quality Management System (QMS) in Standards Department of GEOSTM	GEOSTM's standards department implemented QMS in accordance to ISO 9001:2015	Pre-audit in report for ISO 9001:2015 quality management system certification in Standards Department	LEPL – Georgian National Agency for Standards and Metrology (GEOSTM)		Preliminary assessment audit ("Pre-audit") was conducted certification body selected in framework "Twinning Project", during which auditors assessed on-site documents, procedures, and existing practices developed by the Standards Department, considering the requirements of the ISO 9001:2015. In framework of pre-audit results, the progress achieved by

2024 Annual Report of the Implementation of the EU-Georgia Deep and Comprehensive Free Trade Area Agreement (DCFTA)

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
according to ISO 9001:2015.		<p>by European experts and/or certification body</p> <p>A certificate of conformity has been issued by an authorized accredited person</p>			<p>the department was emphasized, and recommendations were made for further system improvement.</p> <p>On May 21, 28 and 29 of this year, the standards department National Agency of Standards and Metrology of Georgia was visited by international experts with the support of the EU "Twinning" project, within the framework of which the standards department successfully passed the audit and completed the certification procedure of the standards department of the European standard GES EN ISO, which has been adopted as a standard of Georgia. 9001:2015 "Quality Management Systems - Requirements" accordingly. On July 5 of this year, it received the (EN ISO 9001:2015) certificate of conformity.</p>
3.2.4. Continuation of preparatory works for introducing the new services in the field of metrology in accordance with ISO 17034: 2016 reference materials	Documents and procedures required for the implementation of the Quality Management System in accordance with the international standard ISO 17034: 2016 are prepared	Annual report of LEPL GEOSTM	LEPL – Georgian National Agency for Standards and Metrology (GEOSTM)		<p>On January 21st-26th and March 4th-7th of this year, within the framework of the TWINNING project, trainings were held for the representatives of the physicochemical laboratory of the Institute of Metrology in accordance with the requirements of the ISO 17034:2016 standard "Preparation and stabilization of standard samples on homogeneity".</p> <p>On May 3-15, a training was held for the representatives of the Physical Chemistry Reference Division within the framework of the twinning project - discussion of the procedures for the production of standard samples of the specific electrolytic conductivity of electrolyte solutions in accordance with the ISO 17034 standard.</p> <p>On April 15-19, an external audit was conducted in accordance with the ISO 17034 standard, and on June 11-13, within the framework of the twinning project, trainings were held for the representatives of the metrology institute "Organization and management of comparisons between metrology institutes and laboratories according to the requirements of the ISO 17043 standard".</p> <p>On July 16 – 18, an external audit was conducted in physic-chemical reference laboratory by a twinning expert on the production of standard samples of specific electrolytic conductivity of electrolyte solutions according to ISO 17034, which was successfully completed.</p>

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
<p>3.2.5.Continuation of activities to obtain GEOSTM's full membership in European Regional Metrology Organization EURAMET</p>	<p>GEOSTM is a member of the EURAMET; The selected priority laboratories of the Agency have passed the peer review by EURAMET experts</p>	<p>Information on EURAMET web-page</p>	<p>LEPL – Georgian National Agency for Standards and Metrology (GEOSTM)</p>		<p>In order to maintain/expand international recognition, on March 12th-14th, 2024, in the framework of the TWINING project EURAMET experts conducted a so-called peer review in accordance with the requirements of the ISO/IEC 17025:2017 standard in the following areas of measurements: length, pressure, dosimetry. The assessment was successful. Accordingly, the number of recognized records of the Institute of Metrology of the Agency is 65 CMC records.</p> <p>On June 4-6, 2024, the general assembly of EURAMET was held, with the full support of the members of the mentioned organization, the agency was granted the status of a full member. At the General Assembly, the representative of the Agency made a report on the activities of the Institute of Metrology of the Agency.</p> <p>The representatives of the reference departments of the Metrology Institute of the Agency are actively involved and participate in the activities of the technical committees of EURAMET.</p> <p>On March 14, the representative of the electrical reference department participated in online training organized by EURAMET "Uncertainty of Measurements: Best Practices in Training and New Tools - Digital, Software, Mathematical, Ideas and News for Future Development".</p> <p>On March 19-22, the Quality Manager of the Metrology Institute of the Agency attended in the working meeting of the EURAMET Quality Committee (Delft, the Netherlands).</p> <p>On April 16-18, the representatives of the Temperature and Humidity Reference Division participated in the working meeting of the technical committee (TC-T) of EURAMET, in Poland. in Wroclaw.</p> <p>On 22.04 – 25.04, representatives of the Mass and Mass-Related Quantities reference division participated in the EURAMET Technical Committee Meeting (TC-Flow - Technical Committee Flow), which was held in Finland.</p> <p>On 13-15, 2024 The representative of the reference division of electricity participated in the meeting of the subcommittee of EURAMET TCEM SC Power and energy - "Electricity and magnetism" technical committee, which was held in Delft.</p> <p>The representative of the radiophysics, optics and acoustics reference division participated online in the working meeting of the acoustics technical committee held within EURAMET.</p> <p>On May 28, representatives of the Institute of Metrology participated in the online seminar held within the framework of EURAMET - NORDTEST Approach for the Evaluation of the Measurement Uncertainty -Using of Mukit Software.</p>

2024 Annual Report of the Implementation of the EU-Georgia Deep and Comprehensive Free Trade Area Agreement (DCFTA)

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
					<p>On June 6, 2024, representatives of the radiation metrology reference division participated in the EURAMET and EMN seminar for clean energy - the seminar "Metrology for Energy Regulation".</p> <p>On October 7-11, 2024, a representative of the Institute of Metrology participated in the Technical Committee TC –M EURAMET - Mass and Related Quantities, Pressure Field.</p> <p>On October 27, 2024, representatives of the Institute of Metrology participated in the EURAMET New Capabilities Development Coordination Project, which was held online</p> <p>On October 23-24, 2024, a representative of the Electrical Reference Division participated in the EURAMET Technical Committee Workshop held in Paris</p> <p>On November 5, 2024, representatives of the Institute of Metrology participated in an online seminar related to the MID and NAWI directives,</p> <p>On November 20-23, 2024, representatives of the Mass and Mass-related and Physico-chemical Laboratories participated in a training on the calibration of large-scale measurements, which was held at the Portuguese Institute of Metrology.</p>
3.2.6. Update/improve the existing status of Georgian National Agency For Standards And Metrology (GEOSTM) in European Standardization Organizations CEN/CENELEC and implementation of respective activities	Further increase the rate of harmonization with European standards to at least 80%	CEN/CENELEC report	LEPL – Georgian National Agency for Standards and Metrology (GEOSTM)		As of 2024, the harmonization rate of Georgian standards with European standards (EN) is 87,31%. This indicator, based on European standards organizations, is presented in the following form: CEN -85.67%, CENELEC – 92, 68%.
3.2.7 Implementation of the system of notification of accredited conformity assessment bodies	Prepared/approved action plan for accredited conformity assessment bodies	annual report of the accreditation center; www.gac.gov.ge	LEPL - Georgian National accreditation body – Accreditation Centre	Ministry of Economy and Sustainable Development of Georgia	An informative workshop related to the notification process of the accredited conformity assessment bodies and the existing system within the European Union was conducted at the accreditation center. The discussion, led by invited experts, highlighted the significant role of accreditation in the notification process. The gathering was attended by representatives from the Ministry of Economy and Sustainable Development of Georgia, the Ministry of Labor, Health and Social affair, the National Center for Disease Control and Public Health, and the Market Surveillance Agency.
3.2.8 Placing the combined symbol confirming international and European recognition on	Placed combined symbols on documents or certificates issued by	annual report of the accreditation center; www.gac.gov.ge	LEPL - Georgian National accreditation body – Accreditation Centre		Based on the granted full membership status of the international accreditation organizations (ILAC and IAF), Georgian Accreditation Center has developed a Policy Document on the Use of the Accreditation Center’s Logo, Combined Logo, Accreditation Symbol, Combined Symbol

2024 Annual Report of the Implementation of the EU-Georgia Deep and Comprehensive Free Trade Area Agreement (DCFTA)

Activity	Output Indicator	Source of Verification	Responsible Institution	Partner Institution	Implementation Report
documents issued by accredited conformity assessment bodies in Georgia	accredited conformity assessment				<p>and Text Reference to Accreditation Status (PL-09). The Centre has also amended and updated the rules and procedures of the accreditation center (1.1.2020 and 1.9.2020).</p> <p>Accredited organizations have been notified about the changes through meetings. They are currently in the process of updating their quality documentation to comply with the new requirements. Once the updates are complete, they will be authorized to use the new combined symbol on their documents. According to the data of the 3quarters of 2024, approval was obtained more than 90% of the accredited bodies.</p> <p>The process is expected to be finished by the end of this year.</p> <p>In the fourth quarter of 2024, 98% of accredited bodies were granted consent to use the combined symbol.</p>
Objective 3.3.	Facilitate the training and adaptation of stakeholders, including economic operators for the implementation of related legislation				
3.3.1. Organize meetings / seminars for interested parties, including small and medium entrepreneurs	Meetings held / Number of seminars;	DCFTA Implementation Report www.DCFTA.gov.ge	LEPL – Georgian National Agency for Standards and Metrology (GEOSTM); LEPL - Georgian National accreditation body – Accreditation Centre; LEPL-Market Surveillance Agency	Ministry of Economy and Sustainable Development of Georgia	<ul style="list-style-type: none"> • On February 2nd, 2024, within the framework of the project "Quality standards for increased trade in Eastern Partnership countries" funded by PTB, a seminar was held in the agency: determination of the demand of interested parties in the field of metrology in Georgia and ways to meet this demand. The mentioned meeting was conducted by an expert of PTB, representatives of reference laboratories of the Metrology Institute of the Agency and also representatives from various accredited laboratories took part. • from 19th – to 23th of February - within the framework of the Twinning project, a training was held for the representatives of the Institute of Metrology of the Agency and interested parties on "European Directive 2014/32/EU measuring instruments" and discussed the issues on emission analyzers and OIML recommendation R99:2008 recommendations for measuring vehicle emissions. • On 28th of February, 2024, the Georgian National Agency of Standards and Metrology, together with the "Twinning Project" expert, held a working meeting "Quality infrastructure as the best tool in public procurement in accordance with the best practices of the European Union" in the State Procurement Agency, the meeting was attended by up to 30 participants from various organizations involved in state procurement. • The representative of the Standards Department of the Georgian National Agency for Standards and Metrology participated in the "Strengthening of Quality Infrastructure Services for Added Value, Productivity and Innovation" conference held by the German Institute of Metrology (PTB) at the Ginger Hotel on March 7th. • On January 25, 30 and June 6, the Standards Department of the Georgian National Agency of Standards and Metrology, in coordination with the Construction Department of the Ministry of Economy and Sustainable Development of Georgia, held a meeting of the members of the "Eurocodes" working group of the Standardization Technical Committee (TC 5) with the experts invited by the Joint Research Center (JRC) of the European Commission. During the meeting with the experts, the procedures for developing seismic and climatic maps were discussed. In order to further promote the

					<p>Protection” was created.</p> <ul style="list-style-type: none"> On November 15, 2024, a seminar on the topic "International Calibration Guidelines" was held at the LEPL National Agency for Standards and Metrology of Georgia, within the framework of the project "Strengthening quality infrastructure services for adding value, productivity and innovation", funded by PTB and BMZ. The next meeting of the National Accreditation Council was held at the Accreditation Center. During the meeting, the members of the Council were informed about the changes implemented in the organization and future plans. The meeting was attended by representatives of various state agencies, business associations and associations of conformity assessment organizations. On October 16, 2024, with the support of the Ministry of Environmental Protection and Agriculture of Georgia and the United Nations Industrial Development Organization (UNIDO), the UNIDO-GQSP project coordination meeting was held. Within the framework of the project, Giorgi Chitadze, Deputy Director of the accreditation Center, provided information on the role of accreditation and future development prospects.
<p>3.3.2. Organize trainings for accredited conformity assessment bodies in the fields of standards related to their activities.</p>	<p>Meetings held / Number of seminars;</p>	<p>Annual Report of Accreditation Centre www.gac.gov.ge</p>	<p>LEPL - Georgian National accreditation body – Accreditation Centre</p>	<p>Ministry of Economy and Sustainable Development of Georgia</p>	<p>During 2024, the Accreditation Center conducted 10 training sessions for interested parties, specifically:</p> <ol style="list-style-type: none"> SST ISO/IEC 17065:2012/2014 – Conformity Assessment – Requirements of Product, Process, and Service Certification Bodies – 1 session. SST ISO/IEC 17024:2012/2012 – Conformity Assessment – General Requirements for Personnel Certification Bodies – 1 session. ISO/IEC 17025:2017/2018 – General Requirements for Testing and Calibration Competence – 4 sessions. SST ISO/IEC 15189:2012/2015 – Medical Laboratories – Requirements for Quality and Competence – 1 session SST ISO/IEC 17020:2012 – Conformity Assessment – Requirements for the Activities of Different Types of Inspection Bodies <p>A total of 135 participants from accredited bodies attended the aforementioned trainings.</p>
<p>3.3.3. Raising awareness about accreditation rules, procedures and accreditation system among representatives of the executive, legislative and judicial bodies</p>	<p>Number of organized trainings and number of attended representatives of the executive, legislative and judicial bodies on trainings.</p>	<p>Annual Report of Accreditation Centre www.gac.gov.ge</p>	<p>LEPL - Georgian National accreditation body – Accreditation Centre</p>	<p>Ministry of Economy and Sustainable Development of Georgia</p>	<p>The mentioned activity could not be implemented during the reporting period. Negotiations with donors are ongoing, and appropriate measures will be planned thereafter.</p>
